STIC-Biotech/ChemLib

From: Fronda, Christian  
Sent: Monday, August 02, 2004 5:25 PM  
To: STIC-Biotech/ChemLib  
Subject: Search for Serial No. 10/644,123

Importance: High

Please perform sequence search and interference search for Serial No. 10/644,123

1. Please search SEQ ID No.: 1 against nucleic acid commercial and interference databases including pending and issued.
2. Please search SEQ ID No.: 2 against nucleic acid commercial and interference databases including pending and issued.
3. Please search SEQ ID No.: 3 against nucleic acid commercial and interference databases including pending and issued.
4. Please search SEQ ID No.: 4 against nucleic acid commercial and interference databases including pending and issued.
5. Please search SEQ ID No.: 9 against nucleic acid commercial and interference databases including pending and issued.

Please save on COMPUTER DISKETTES.

Please save results from interference data base search on different diskettes from the commercial and issued search results.

Thank you very much.

# STIC SEARCH RESULTS FEEDBACK FORM

## Biotech-Chem Library

Questions about the scope or the results of the search? Contact *the searcher or contact*:

Mary Hale, Information Branch Supervisor  
571-272-2507 Remsen E01 D86

## Voluntary Results Feedback Form

➤ I am an examiner in Workgroup:  Example: 1610

➤ Relevant prior art **found**, search results used as follows:

- ☐ 102 rejection
- ☐ 103 rejection
- ☐ Cited as being of interest.
- ☐ Helped examiner better understand the invention.
- ☐ Helped examiner better understand the state of the art in their technology.

Types of relevant prior art found:

- ☐ Foreign Patent(s)
- ☐ Non-Patent Literature  
(journal articles, conference proceedings, new product announcements etc.)

➤ Relevant prior art **not found**:

- ☐ Results verified the lack of relevant prior art (helped determine patentability).
- ☐ Results were not useful in determining patentability or understanding the invention.

Comments:

Drop off or send completed forms to STIC/Biotech-Chem Library Remsen Bldg.

### **Search Notes**

Examiner Fronda,

Here are the results of the search you requested.

Please feel free to contact me if you have any questions.

Edward Hart

Pending Nucleic Acid and Pending Amino Acid database searches generate two sets of results each. The Pending databases have been split into two parts to reduce the amount of time required for their daily updates. This results in more machine time being available for processing searches.

Searches run against the Nucleic Acid Pending database produce two sets of results, with the extensions **.nrpm** and **.nrpn**

Searches run against the Amino Acid Pending database produce two sets of results, with the extensions **.rapm** and **.rapn**

***Because they contain data that is confidential, the results of Pending database searches should not be left in the case .***
